Theo, sorry I haven't responded sooner to your letter. My son in-law had an emergency operation which lasted to midnight. I was at my daughter's house taking care of things until her husband came home, a few days ago.

I just got gas at the BP station, my tires were 10 lbs. low, they were filled. This morning the temperature was 22 degrees, hope my elderly car can withstand such low temperatures.

I appreciate the service from you and "The Guys." I have lived in PTC for 5 years, my car has been serviced by several automotive companies that I will not go back to.

If and when my Tempo needs help, I'll give you a call.

Thanks,
